

GOODS DESTRUCTION & SAFE DISPOSAL

Interwaste offers a destruction and disposal service for items such as expired pharmaceuticals, redundant consumables and counterfeit goods which require total destruction to ensure that company branding, quality, confidentiality and market integrity is protected.

Such goods are collected in various sized Safe Disposal containers which are fully welded and have closed tops and lockable lids. After collection goods can be crushed, incinerated or shredded with the efficient PowerShredder depending on specific requirements. Security is guaranteed as goods to be destroyed arrive into a securely fenced compound for processing after which the debris is reloaded for appropriate disposal at a landfill site. Any liquid filled products are destroyed with the liquid content directed into a holding tank for separate disposal.

Clients are welcome to observe the entire destruction process after which a Certificate of Safe Disposal is issued.

POWERSHREDDER SPECIFICATIONS

Shredding capacity	Up to 30m ³ per hour
Weight	16 420kg
Transport Width	2.52m
Transport Length	7.66m
Transport Height	2.65m
Working Width	2.57m
Working Length	9.16m
Working Height	4.9m

Please discuss the suitability of operating the PowerShredder at your location with an Interwaste consultant.

The Interwaste Powershredder 1800 is a highly efficient shredder which is ideally suited to the volume reduction/destruction of a wide range of products and materials. The aim is to reduce both transport and disposal costs and enable separation for further recycling and reutilisation.

It can be operated at an Interwaste facility or, for maximum convenience and security, can be located at a clients premises.

Shredded material is loaded directly into suitable bins or containers ready for transport to final disposal.

The unit can be trailed or can be located to site on an Interwaste Ro-Ro (Roll on-Roll-off) vehicle. It is totally self sufficient on-site and is suitable for:

- Light bulky waste for recycling e.g. cardboard, paper, cans, plastic etc.
- Manufactured/confidential goods for safe disposal.
- Green and organic waste for composting etc.
